

Vision begins with a listening ear!

An invitation for parish development

What is it?

This new initiative from the Department of Pastoral Formation provides an opportunity for any parish community to look afresh at its development, renew its vision and establish priorities for the future in order to more effectively achieve its mission of evangelisation.

How does it happen?

The process consists of three 2.5 hour sessions to be arranged between 3 and 4 weeks apart at mutually convenient times:

- Session one will introduce the process, clarify our understanding of evangelisation and agree the roles and tasks for the listening exercise which takes place between sessions one and two.
- Session two will enable reflection on the outcomes from the listening exercise and assign roles and tasks for prioritising.
- Session three will establish priorities for the next three years and clarify the next steps to be taken.

Who is it for?

New and/or existing members of parish councils and /or leadership teams and those interested in developing the parish community.

What happens next?
